

Working in a Changing Water Industry

A British Water and IWEX Summit for the UK Supply Chain

20th and 21st April 2010
Toute Suite, NEC, Birmingham

British Water, in association with IWEX, is delighted to announce a major two day event to run alongside IWEX 2010.

The purpose of the two-day summit is to increase the supply chain's knowledge of how the UK and International markets are working in an ever changing industry.

Building on the success of its Supply Chain Conference in 2009, the summit will discuss the very real challenges and issues facing our industry today.

With a wide range of experienced and industry known speakers, day one will focus on the UK market whilst day two will have an International perspective.
